

Our Staff

Our preschool staff is committed to providing the best quality care and education to all children. Teachers and staff are carefully screened and well-qualified, bringing enthusiasm and appropriate experience to the preschool.

The most important adults in a child's life are the parents. We seek to create a partnership of trust with parents for the good of each child. Communication is regular and frequent, both written and in person, so that the child can benefit from this partnership. Our staff -- from the teacher to the Director -- wants to work with parents to quickly address their needs.
